I, _____, Oregon Construction Contractors Board No. _____ certify the following is true and defines the scope of work for this project.

- All work is limited to drops and armovers in a light-hazard occupancy.
- Positions of sprinkler heads relative to architectural features such as soffits, beams, partitions, walls, etc. complies with the current edition of NFPA 13.
- The proposed work does not require hydraulic calculations.
- Only one sprinkler head will be installed from one drop (exception: up to two heads from one drop may be installed when each head is in a separate fire area).
- The area covered per sprinkler head is limited to the spacing requirements of NFPA 13.
- Tenant improvements in a new building shall be equipped with Quick Response heads (see 2002 – NFPA 13, Section 8.3.3.1 for exceptions).
- The installation shall comply with the requirements of the current adopted edition of NFPA 13.
- Piping shall not be concealed until hangers and bracing are inspected.
- Final approval shall be subject to onsite tests and inspections.

In addition, I understand the following is required:

- A sketch attached to this document showing the area of work within the building's structure, and
- A copy of this document shall be available for all inspections.
